A LIVELY CAMPAIGN.

Indications point to the evident facpaign in Ohio this year. The Republican have commenced business, vigorously and are likely to push things, in an industriate and energetic way, until the end of the campaign. Judge Foraker and General Kennedy have as yet, allowed no grass to grow under their teet and we wouldn't wish to insure good pasturage for the sum to repeat the victory of last fall, with an nexes, bay windows, colored sky-lights and all the modern improvements. Nine years ago this summer, writes a Scranton, Pa., correspondent to New York sun, a gang of horse-thickes infested various parts of Susepenhanna county, and a fine hay more, valued at 8600, was stolen from the stable of De Witt Wells, of Clifford township. She was the family's pet. Mr. Wells went to considerable expense in trying to find her, but he had no specess. A few weeks ago Farmer Jean Lee bought a mare of Johnson & Miller, of this city, and took it to his farm in Clifford township. Ziphron Bell, a lad of the neighborhood, took a notion to her aucoaxed his guardian. Anson Trugley, to buy it for him. Tingley said be would buy it on condition that Lee should refund the money in case any trouble the horse was the one which had been stolen from Wells in 1876, but he scarcely believed it. Soon after young Bell had got possession of the mare Wells made up his mind that she was the one he had lost so long ago. Bell said that he'd "be gol daraed" if he believed that she was the horse at all, but Wells prevailed on him to consult Clarence Vail, a Greenfield farmer, who owned the stolen mare when she was a colt. Vail gave Bell a description of the colt, and it compared so necessately with the looks of the horse that young Bell began to fear he would have to give up the property. In order to fur-ther prove to Bell that the mare had once belonged to him. Wells said that if Bell would turn the mare loose in the road near Wells barn she would go direct to a certain stall in the stable which he named; that is, she would if she was the horse that he asserted she was. Wells agreed not to say another word about the mare unless she entered that particular stall of her own accord. If she did that she was his property beyond a doubt. Bell thought he turned the mare loose near Weds barn in the presence of half a dozen farmers, who had met there to see how the mare would act, and some of whom had bet a quarter apiece that she wouldn't go into the stable. As soon wouldn't go into the statue. As soon

Brooklyn is not New York. It is not a part of New York. It is an independent city, with a government, a locality, a character altogether its own. It is situated opposite New York, upon, the other side of the East rayer, the chaunel which flows between the Sound and the New York Bay. You get from one city to the other by the ferries, or by the new Suspension Bridge a noble engineering work, which must satisfy even an American as the greatest undertaking of its kind in Brooklyn is a city of some 700,000 inhabitants, the third city in the Union, greatly overshadowed, of course, by its neighbor over the river, but still contributing not a little to the force and moral energy of those 2,250,0 0 who live within a circle of ten miles from the New York post office. Brook-lyn has been sometimes called the "Bed-room of New York" and it is true that many persons employed dur-ing the day in the business parts of the Empire City have their homes in Brook-lyn. It is, in fact, a subuch of the great center of trade and occupation found in the lower part of Man found in the lower part of Maniantan Island. Brooklyn spreads over a far larger territory than New York, for the occupation of a single house by a sepa-rate family is more common here than where land is scare, as in the neighbor ing city. Hence its population is more homogenous. It has fewer millionaires and fewer papers. It is probably more American, more native, more Protestant than New York. It has more homes, less residences; more comfort, less display. It is a middle-class city. many parts of it, it is almost rural a f families, of verdure, of Christian life, of churches, of preachers.
